LRS MFPsecure for Ricoh
MFPsecure solutions from LRS

In spite of a predicted paperless work place, document printing remains an important aspect of most organizations. Businesses often rely on timely, and securely printed documents to keep their operation flowing smoothly.

With multiple brands of printers in the workplace, keeping all your printing secure yet easily accessible can sometimes provide challenges.

LRS® MFPsecure® solutions provide secure document queuing and release capabilities. No matter what brand of printers you use, LRS works closely with many vendors, including Ricoh, to ensure our solutions work seamlessly with them.

How MFPsecure Works

LRS MFPsecure software, coupled with your Ricoh hardware, routes print jobs to the solution's PersonalQ and holds them there until the user is ready for the job to print on any equipped Ricoh device in your organization.

T

Whether your organization uses Ricoh printers exclusively or employs multiple vendor's devices, MFPsecure from LRS can help you gain the maximum savings possible while simultaneously maintaining optimal security from your Ricoh fleet of printers.

o the user, the MFPsecure PersonalQ is an output destination that looks like any other device in the "Printers and Faxes" on their Windows® workstation. The advantage of using the MFPsecure software is that users can retrieve all output that is sitting in their PersonalQ directly from the touchscreen of a Ricoh multifunction device.

A user can print one, all or individual documents with a single click. The user never has to worry about information being lost before the last page has printed because MFPsecure for Ricoh provides secure spooling and document delivery capabilities.

Stay Secure and on Track

Besides the security and time-saving aspects of MFPsecure for Ricoh, your organization will also have audit tracking capabilities.

Make the most of your Ricoh printers and capitalize on the security and convenience that MFPsecure can bring to your enterprise. To learn more about LRS MFPsecure for Ricoh, contact your LRS account representative or visit lrsoutputmanagement.com.
