Corporate IT im Wandel

Digitalisierung passiert jetzt

“At least 40% of all businesses will die in the next 10 years... if they don't figure out how to change their entire company to accommodate new technologies.”

* John Chamber, Chairman and former CEO Cisco Systems

“in today's era of volatility, there is no other way but to re-invent. The only sustainable advantage you can have over others is agility- that's it.

Because nothing else is sustainable.
Everything you create – somebody else will replicate.

*Jeff Bezos, Amazon founder

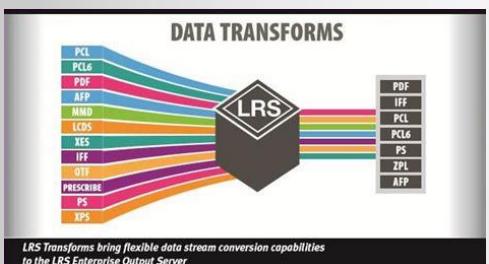

Konstanter Fortschritt und Wandel

Mainframe 1979
LRS started with VPS

Serverless Printing
LRS IPdirect and Cirrato

OM Process Digitalisierung Automation
LRS transforms and IDB

Open System Computing
LRS launched VPSX

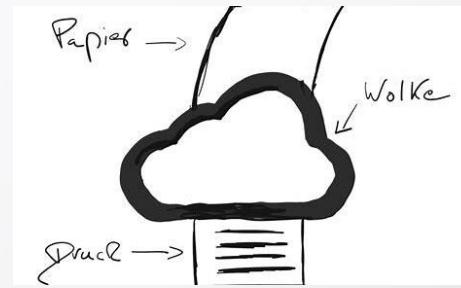

Secure Delivery
LRS Pull Print via Mfp

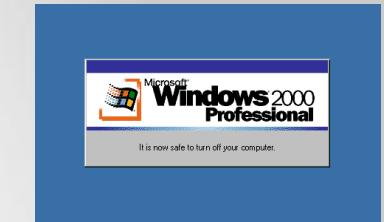

Mobile Device Printing
LRS Mobile Connector

VDI Printing
LRS VSPA Citrix and VMware

LRS Cloud Printing

Desktop Printing
LRS enhanced VPSX

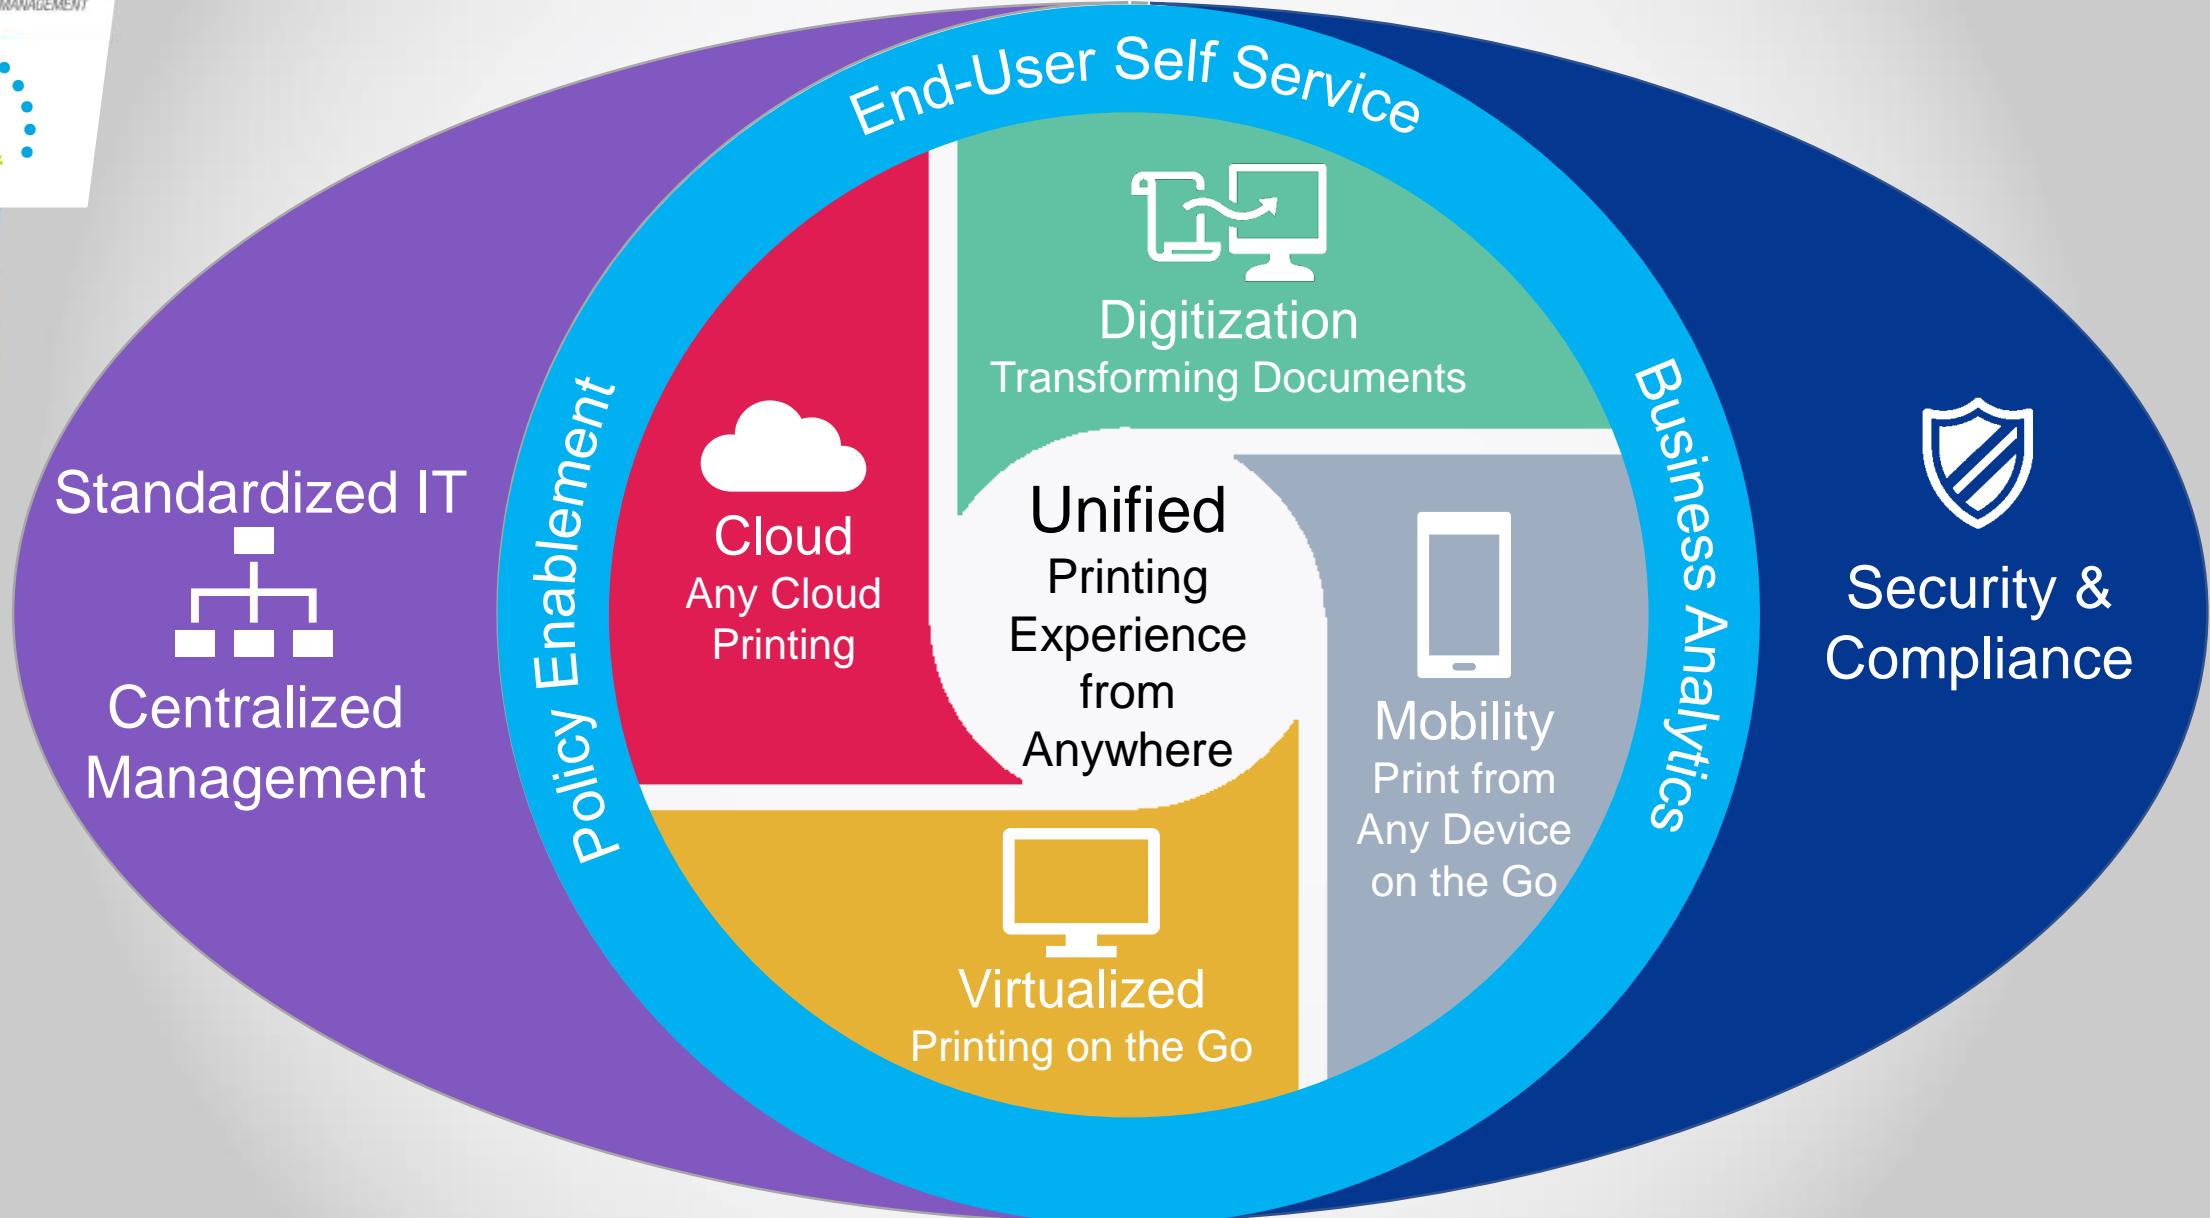

LRS Mobile enables
iBeacon technology

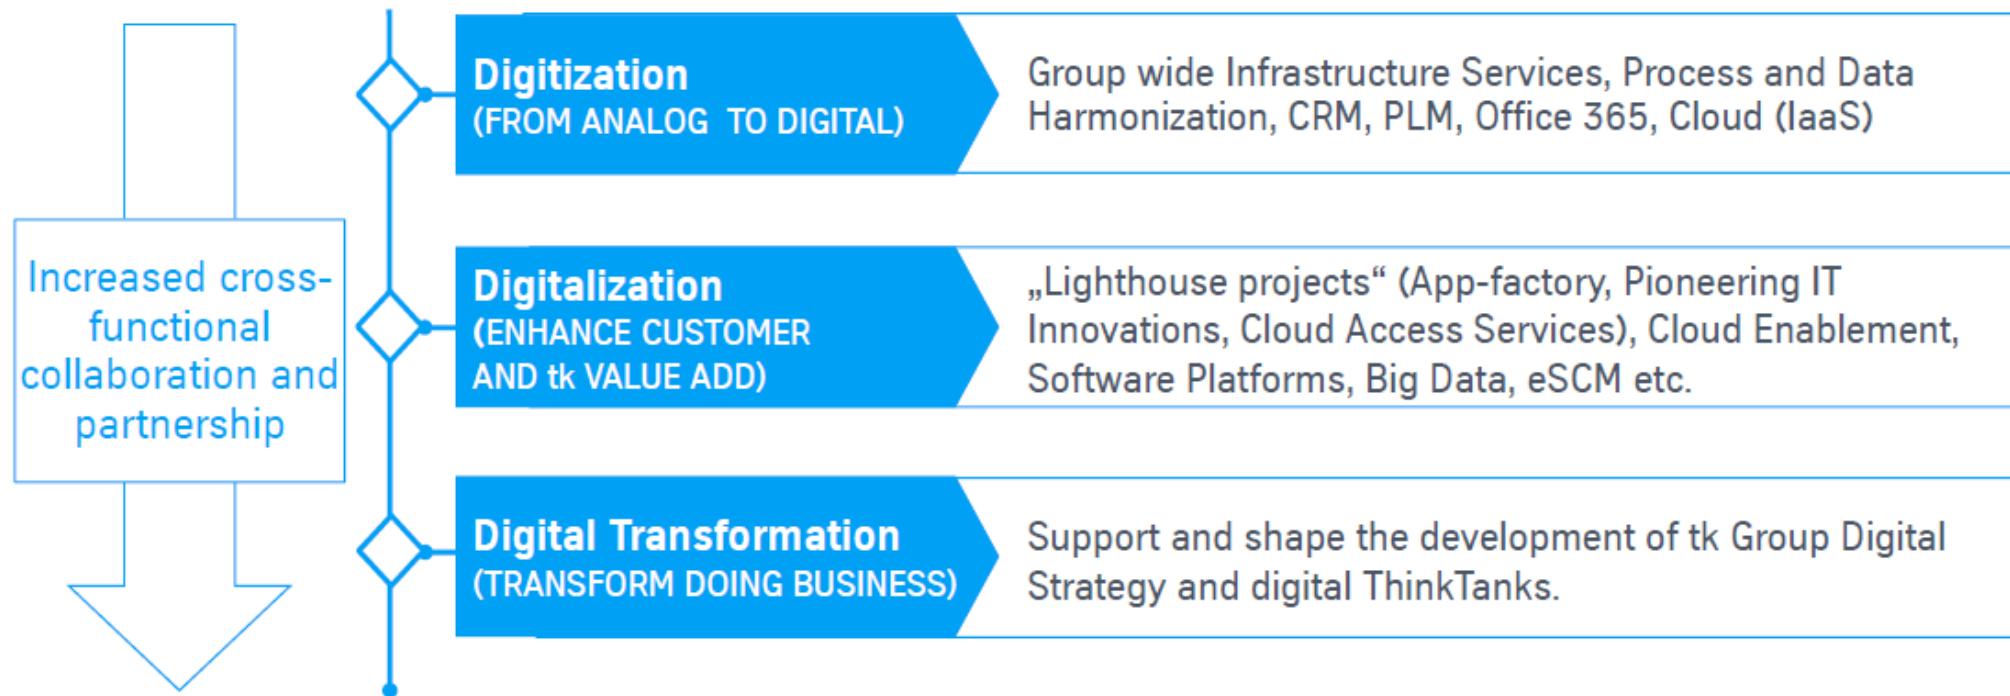

Scan Workflows
Doc Digitalization

LRS OM in 2018

IT at thyssenkrupp started the digital journey ...

Digitization as a foundation, IT supports and enables Digitalization and is involved in Digital Transformation.

After LRS - Print Infrastructure

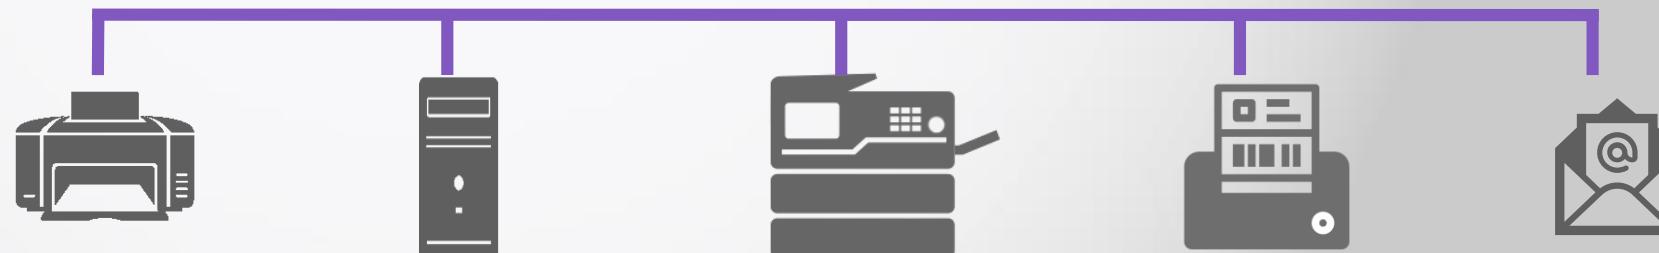

The LRS software layer removes the need for all print servers, 3rd party software and device specific hardware significantly reducing IT costs

For companies with multiple MPS providers, ITO's or Service Providers this standardized layer also provides LRS customers with vendor independence.

Any Document – Any Platform – Any Destination

Any Document – Any Platform – Any Destination

After LRS – Simplified IT

Key Performance Improvements from LRS Software research by IDC*

Less unplanned printer downtime

Less printer user support

More efficient print management

*IDC Completed a study of LRS customers to find above results

“Wege entstehen dadurch, dass man sie geht!”

* Franz Kafka, Literat, Juli 1883 – Juni 1924
